Bettina Stark

Liebe Bettina,

On behalf of the officers and Board of the Cannstatter Volksfest Verein, as well, I am sure, of the thousands of guests at our 131st Volksfest, I would like to thank you for taking time from your full professional schedule to cross the Atlantic and help us with our annual celebration. Your enormous talent and your professionalism combined with your unique ability to connect with the audience made your performances one of the high points of the festival. When the two bands were selling CD's many people were requesting "something of Bettina"

We sincerely appreciate the enthusiasm and energy which you bring to every show and your capability of involving the guests in the music. I really believe you have the stamina and repertoire to have kept them entertained the entire weekend. You lightened up the fest tent more successfully than all of the electric lights we had in there.

Once again a heartfelt "danke schön" from all of us. We can hardly wait for your next appearance at the Cannstatters.

mit herzlichen Grüßen,

David J. Roscoe, Secretary
